ARTWORK

SEND US WHATEVER YOU'VE GOT

Most shops ask you to upload a print-ready vector file. Most people don't have one — they have a logo their cousin made in 2019, a screenshot with a white box around it, or an idea they've never drawn. **That's the part we actually do.**

That's the "Lab" in MP Design Lab

We'll clean up what you send, redraw it if it needs redrawing, pick type that holds up at print size, and separate the colors. Then you get a mockup on the actual shirt. Design work is included in the shirt price — not a line item.

HOW IT WORKS

FOUR STEPS, NO SURPRISES

1

TELL US WHAT YOU NEED

3

YOU APPROVE, WE PRINT

WHO WE PRINT FOR

THE ORDERS OTHER SHOPS TURN DOWN

A 24-piece minimum rules out most of the people who actually need shirts. Those are our customers.

CREWS & SMALL BUSINESSES

Lawn care, detailing, cleaning, barbers, trainers, food trucks. Six shirts for you and the guys, reorder when someone new starts.

REUNIONS & EVENTS

Family reunions, bachelorette weekends, birthdays, memorial shirts, graduations. You've got a date — we work backward from it.

TEAMS & LEAGUES

Softball, kickball, broomball, beer league. Twelve jerseys, team name on the chest, number on the back if you want it.

CREATORS & SMALL BRANDS

Bands, gyms, churches, taprooms, tattoo shops, side-hustle labels. Print a small run, see if it sells, come back for more.

OUR WORK

PRINT QUALITY IS THE WHOLE PITCH

Drop in six to ten photos of shirts you've actually printed — on people if you can get them, folded flat-lay if you can't. Close-ups of the print beat styled product shots. This section sells more than any sentence on this page.

ABOUT

WE STARTED BECAUSE NOBODY WOULD PRINT TWELVE SHIRTS

[Owner name] has been [designing / printing] in the Twin Cities for [X years].

MP Design Lab exists for the orders that get turned away: twelve for a family reunion, six for a new landscaping crew, one for your dad's birthday. The big

printers aren't built for those, and the online ones won't touch your artwork — they just print whatever you upload and let you find out later that it came out pixelated.

Every order gets a real mockup from a real person before it goes to press. If the design isn't right yet, we keep working on it until it is. That's the whole business.
